

## Bi-material Stainless Steel Levelling Putty Knife

Specially for filling and levelling

Putty knife for levelling or plastering, with "Made in Albacete" quality.

INOX

### No edges to prevent marks

Rounded edges to prevent marks when working in corners.

### Flexibility

Thanks to artisan grinding, we guarantee that the blade flexes and returns to its original position after use.

### Ergonomic

Bi-material handle designed to ensure movement and increase comfort.

### European quality

1.2 mm European stainless steel polished to a mirror finish.
